## **Salient Federal-SGIS Selected as one of the Prime Vendors on FBI IT IDIQ Contract**

**FAIRFAX, VA — November 16, 2010** — [Salient Federal Solutions, Inc.](#) (Salient Federal) a leading provider of Federal IT and engineering solutions, today announced that [Salient Federal-SGIS](#) has been selected as one of the prime vendors for the Federal Bureau of Investigation's largest ever Indefinite Delivery/Indefinite Quantity (IDIQ) Basic Ordering Agreement (BOA) for Information Technology Services contract vehicle which carries a ceiling of approximately \$30 billion over eight years.

Under the terms of the contract, selected companies can bid on IT services and supplies for the FBI or other offices within the Department of Justice. The eight-year effort will provide a range of capabilities that ultimately will allow the FBI to successfully complete its national security mission.

“Salient Federal and our team of partners are honored and proud to be given the opportunity to provide highly skilled resources, capabilities, and services to further advance the FBI's mission to safeguard our nation,” said Brad Antle, CEO of Salient Federal Solutions.

Salient Federal and its team of partners will work to provide the FBI and associated offices unequalled ability to respond quickly to new and surge mission requirements for critical skills, expertise and technical solutions. Specifically the scope of work will include infrastructure build-out, cyber security solutions, network and systems engineering, custom application development, systems integration, and other mission critical efforts to meet the business needs of Federal law enforcement offices.

“Through our Talent Operations Centers, a best practices approach to talent acquisition and deployment, we can better serve the FBI and associated offices through rapidly deploying the

required talent and IT solutions with speed, precision, quality and results,” said John Humphrey, senior vice president of Salient Federal.

As a prime vendor, Salient Federal will be leading a team of distinguished solutions providers including Agilex Technologies Inc., Allied Associates International (A<sup>2</sup>I), Inc., AMERICAN SYSTEMS, AVID Technologies Inc., CDW Government LLC, Citizant Inc., Client Solution Architects LLC, CompSec Inc., createTank LLC, Creative Information Technology Inc.(CITI), Delex Systems Inc., DynaTouch Corporation, Fusion Technology LLC, Gotham Government Solutions LLC, Imagine-One Technology & Management Ltd, Kadix Systems LLC, LGS Innovations LLC and Lingual Information Systems Technology Inc.

***About Salient Federal Solutions:*** Salient Federal Solutions provides innovative technology-focused services and solutions in the following areas: cybersecurity, information technology, intelligence, engineering, and training and logistics.
